

Chakra Tuned "SINGING" Quartz

Crystal Bowl Treatment

What is crystal bowl sound and music and what makes it such a powerful healing Instrument?

Crystal bowl sound is a form of vibrational medicine which validates that everything in the universe is in a state of vibration and the frequency at which an object or person most naturally vibrates is called resonance. The chakras, bones, and organs in the body all possess a different resonant frequency. When an organ or part of the body is vibrating out of tune or nonharmoniously, it is called a "dis ease." or disease. A body is in a healthy state of being when each cell, each organ creates a resonance that is in harmony with the whole being.

Vibrational medicine is based on the idea that all illness or disease is characterized by blockages in the channels on some level, either in nadis, arteries, veins, nerves. When there is a blockage, the organ in question stops vibrating at a healthy frequency and thus it results in some kind of illness. **So through sound and light one can break up, dissolve and release these blockages that initiate in our light or etheric body.** Ultrasound has been used medically for almost two decades as a diagnostic tool by pediatricians while the baby is in the very early stages of fetal development and more recently ultrasound is being used to cleanse clogged arteries. Ultrasound works on the same principle of light equals sound and tone equals radiance manifesting in form.

Crystal bowl sound and music emit a pure holographic template of radiant light that corresponds to the octave of sound within our etheric body. Since sound can be translated into colour, the body may be seen as a visible frequency that produces an auric colour field which reflects emotional states of consciousness and thus the physiological status. **The Chakra Tuned "singing" Quartz Crystal Bowls use specific color that compliment each Chakra. Each color relates to an individual physical center.**

The tone of crystal bowls produces a vibrational sound field which resonates the light body chakra and corresponding physical area. A series of crystal sound therapy facilitates the rebalancing of each receiver back into an elevated level of etheric radiance. **Pure quartz contains the full spectrum of light that is related to seven energy centers (chakras) and thus heals the listener by bringing pure light through sound as specific colour back into the human aura. The effect is multiplied as the crystal bowls are played.**

Quartz crystal music holds the vibration of white light which ultimately refracts into the rainbow and acts directly on our chakra's physical centers when played. It has the power to bring about a positive shift in our consciousness and as our awareness expands, grow close to our original selves and start to reflect the highest radiance in our physical form.

Crystal bowl sound and music is all the more powerful as it can be programmed.

It is interesting to note that even today dolphins and whales are thought to communicate through 3 dimensional holographic thought forms, sounds and harmonics, the intention behind the sound is of extreme importance. It may, in fact, be as important as the actual sounds that are create "The power of thought is the means by, which we create our reality". Nothing can be created if it has not first been thought. **When using crystal to heal, the crystal amplifies the thought programmed within. The crystal has this amazing property and thus, can be used to bring out a special quality or feeling in people and simultaneously release and replace thought forms that are not of the highest radiance for the listener.**

Chakra Tuned Crystal Bowl Treatment. This truly blissful treatment consists of a mixture of spiritual healing; playing quartz bowls around the body into the 7 Chakra's, and meditation to guide you through the releasing and healing process. Treatment approx 1 hour.
